# OB CARE

*The mission of OB Care is to provide pregnancy and childbirth care to foster a healthy, positive experience, regardless of a patient's financial situation.*

## **About OB Care**

OB Care offers prenatal and postnatal assistance and management for women of southwest Louisiana, regardless of their ability to pay. A joint venture between Lake Charles Memorial Hospital and Dr. Walter O. Moss Regional Medical Center, one of 10 hospitals in the LSU Health System, OB Care serves Calcasieu, Cameron, Allen, Beauregard and Jefferson Davis parishes.

## **Services**

In addition to pregnancy care, including fetal monitoring, OB Care prepares patients for labor, delivery and postpartum events through prenatal, breastfeeding and childbirth classes. Our clinic is also affiliated with maternal-fetal medicine specialists for women with high risk pregnancies.

## **Physicians**
