Lake Charles Memorial Health System is the healthcare leader of Southwest Louisiana, and our Sports Medicine program has served student and amateur athletes since 1975.

As a major teaching hospital, Memorial also strives to create rewarding educational opportunities for those involved in treating sports-related injuries.

We hope you will join us for our 2015 Sports Medicine Symposium to learn more about the most innovative treatment options for athletic injuries from some of the best in the business.

Lake Charles Memorial Sports Medicine would like to once again invite physical therapists, coaches, athletic trainers, physicians and other professionals involved in the health care of amateur and professional athletes to the 2015 Memorial Health System Sports Medicine Symposium.

Each year, the symposium features educational presentations from renowned physicians and medical professionals from across the Lake Charles area along with nationally-known special guests to discuss the latest sports-related injuries and treatments. This year’s subjects will cover a variety of fields including pediatric and adult orthopaedics, athletic pain management and injury research studies.

Memorial is proud to once again offer this free educational opportunity for medical professionals and sports medicine enthusiasts that will be held on:

Speakers

Brett Cascio, MD, is an orthopaedic surgeon and serves as Medical Director of Sports Medicine at Memorial Hospital. He is a regional expert and national lecturer in his arthroscopy and cutting edge, minimally invasive hip and shoulder repair techniques. He is fellowship-trained in sports medicine, and has also served as a team physician for multiple high school, college, and professional teams. He is currently one of the team physicians for Baltimore Orioles Spring Training.

Derek Papp, MD, is an orthopaedic surgeon who is fellowship-trained in sports medicine. He has provided medical care for professional and amateur athletic teams including the Baltimore Orioles, Tampa Bay Buccaneers, Florida International University Athletics, Miami-Dade County High School Football and Johns Hopkins Lacrosse. He currently treats patients at the office of Dr. Michael Jacobs, MD, and MedStar Good Samaritan Hospital in Baltimore, Maryland.

Bryan Barootes, MD, CASEM, is a family medicine and sports medicine physician. He treats patients at the Memorial/LSUHSC Family Medicine Center, where he also serves as a member of the residency faculty. He is also an associate clinical professor at LSUHSC in New Orleans.

Preston Wiley, MD, MPE, CASEM, is a sports medicine physician and past director of the University of Calgary Sport Medicine Centre. He is also the Head Physician for the University of Calgary Varsity Athletic Program, where he is also an associate professor of kinesiology and family medicine. He also serves as a consulting physician to Rugby Canada, Wrestling Canada, Pro Rodeo Association, Judo Alberta and the Canadian Sports Institute in Calgary.

Lawrence Weber, MD, PhD, is a fellowship-trained orthopaedic hand and upper extremity surgeon. He specializes in cutting edge microsurgery of the hand to treat conditions such as acute trauma, arthritis, compression disorders and nerve, tendon and ligament injuries.

Jarmon Comeaux, MD, is an internal medicine physician with Memorial Medical Group, board certified by the American Board of Internal Medicine. He is experienced in the treatment of chronic conditions such as diabetes and sickle cell anemia, as well as heart conditions that affect athletes such as hypertrophic cardiomyopathy.

Seth Billiodeaux, MD, is a pain management physician with a fellowship in interventional pain management who is board certified by the American Board of Anesthesiology. He specializes in treating patients’ pain for a variety of conditions including nerve damage and sports injuries.

Daniel T. Hall IV, DPM, is a podiatrist and co-founder of Louisiana Foot and Ankle Specialists in Lake Charles. He is trained in numerous surgical techniques with an emphasis on reconstructive foot and ankle surgery, and his work has been published in Podiatry Today and Podiatry Management.
