Lake Charles Memorial Hospital is the region's largest family- centered medical complex that is locally owned and operated. Currently the 351-bed facility, has the largest emergency department.

It is located in a regionally significant center of petrochemical refining, gaming, tourism and education. This is the home of McNeese State University and Sowela Technical Community College. Also known as the Lake Area due to the many lakes and waterways throughout the city.

HNI enables physicians to practice value-based, collaborative, technology-enabled hospital medicine. Our physician leadership and executive management teams, cultivate a supportive, forward-thinking culture – one centered on quality patient care, clinician development and evidence-based practices.

A successful candidate for HNI Healthcare possesses the following:

- Passion for delivering high-quality, value-based versus volume-driven care.
- Preference for real-time, data-driven clinical decision-making.
- Desire to be a part of an organization that is committed to excellence and team-based collaboration.
- Ability to provide a full scope of primary care services.
