

Nephrology OPPORTUNITY

Southwest Louisiana Hospital Association DBA Lake Charles Memorial Hospital seeks a Nephrologist to work in Lake Charles, LA to diagnose and manage patients with acute and chronic kidney diseases, including hypertension, fluid, electrolyte, and acid-base disorders.

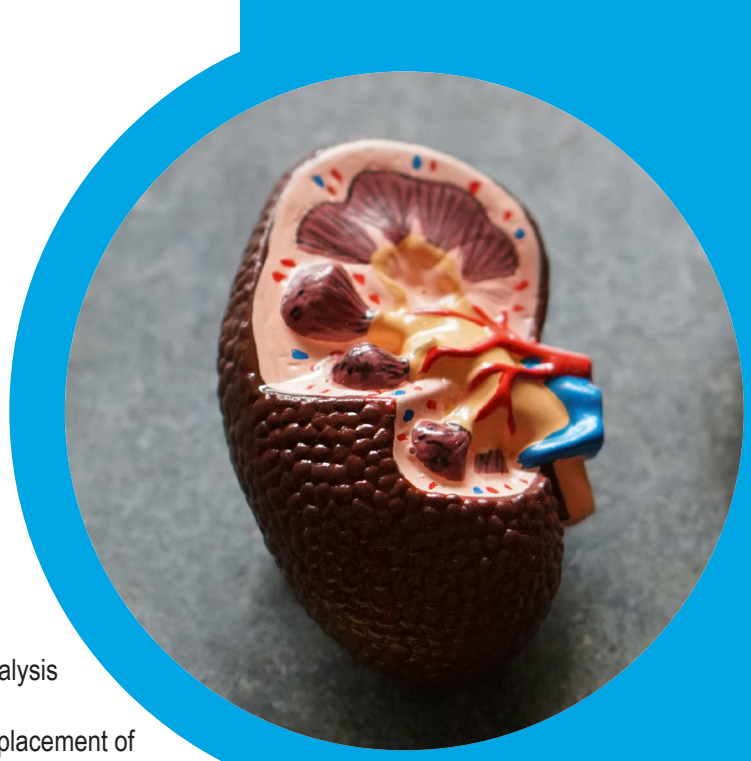

- Provides care for patients with end-stage renal disease, including dialysis management and pre- and post-kidney transplant care.
- Performs nephrology-related procedures including kidney biopsies, placement of temporary vascular access, and ultrasonography of the kidneys.
- Collaborates with a multidisciplinary team to develop and implement individualized care plans.
- Provides inpatient and outpatient consultations and follow-up care for nephrology patients.
- Engages in quality improvement initiatives to optimize clinical outcomes and patient satisfaction.
- Mentors residents and other healthcare team members.
- Remains current with advances in nephrology and adopt best practices.

MINIMUM REQUIREMENTS:

- Doctor of Medicine (MD), Doctor of Osteopathic Medicine (DO) or M.B.B.S. Degree.

SPECIAL REQUIREMENTS:

- Board Certified or Board Eligible in Internal Medicine or Nephrology.
- Louisiana Medical License or eligibility to obtain.
